

SFB 680

**Molecular Basis of
Evolutionary Innovations**

Molekulare Grundlagen evolutionärer Innovationen

Ben Ewen-Campen

Department of Organismic and Evolutionary Biology

Harvard University, Boston

**A "Evolution of arthropod germ line specification
mechanisms: transcriptomic and embryological insights
from the milkweed bug, *Oncopeltus fasciatus*"**

September 11, 2009

5:00 p. m.

Institute for Developmental Biology, Seminar Room, 1st floor

Host: Siegfried Roth
